

Press release

Changes in the management of IBC SOLAR AG

Bad Staffelstein / Germany, August 28, 2019 – IBC SOLAR AG, a global leader in photovoltaic (PV) systems and energy storage, announces personnel changes to its management as of August 1, 2019.

IBC SOLAR AG will be reorganising the management executive team. Lars Degendorfer is appointed to the Executive Board as Chief Financial Officer (CFO) as of August 1, 2019. He will form the full Executive Board along with CEO Udo Möhrstedt and COO Dr. Fred Friedmann.

Lars Degendorfer is a qualified business economist with a focus on finance, banking and investment and has many years of experience in commercial management positions for industrial companies, particularly in the automotive and mechanical engineering sectors. A core aspect of his activities lies in the area of (international) financing. At IBC SOLAR AG, Lars Degendorfer is responsible for Accounting, Controlling, Facility Management and Strategic Group Development as well as for the coordination and networking of the entire IBC SOLAR Group.

About IBC SOLAR

IBC SOLAR is a leading global provider of photovoltaic and energy storage solutions and services. The company offers complete systems and covers the entire product range from planning to the turnkey handover of photovoltaic systems. The product range comprises solar parks, self-consumption systems for commercial enterprises and private households, off-grid photovoltaic systems and diesel hybrid solutions. As a project developer and general contractor, IBC SOLAR implements and markets major solar projects worldwide. The manufacturer-independent system house guarantees the highest quality for all projects and has currently implemented photovoltaic systems with an output of 4,2 gigawatts worldwide. IBC SOLAR works with a close network of Premium Partners and supports them with their own software tools for planning and designing grid-connected systems including storage systems. IBC SOLAR offers customised packages for energy providers, municipal utilities and providers of photovoltaic solutions. The company ensure the best possible output of solar parks through technical management and monitoring.

IBC SOLAR was founded by Udo Möhrstedt in Bad Staffelstein in 1982 who has managed the company as the Chairman of the Executive Board to date. The system house is a pioneer of the energy turnaround in Germany and is especially committed to energy cooperatives with its own planned public solar parks. The company is active internationally with numerous regional companies, sales offices and partner companies in more than 30 countries.
